MISSION

"Our mission is to bridge global markets by providing reliable, high quality products and fostering long term partnerships. between international suppliers and customers. We are committed to ensuring seamless trade processes, enhancing cross-border communication, and contributing to the growth of global commerce while adhering to the highest standards of integrity, sustainability, and customer service.

VISION

"To become a leading global trade facilitator, connecting businesses worldwide through seamless and sustainable import-export solutions. We envision a future where our innovative approach to international trade enables growth, fosters global cooperation, and delivers value to all stakeholders, empowering businesses to thrive in an interconnected world."

ABOUT PROFYNA INTERNATIONAL

At profyna international, we specialize in connecting businesses across borders by offering reliable and efficient import-export services. With a commitment to excellence, we have built a reputation for delivering high quality products from trusted international suppliers to markets around the world. Our deep understanding of global trade dynamics, combined with years of experience, allows us to navigate the complexities of international business with ease. We believe in fostering strong, long-term relationships with both our suppliers and customers, ensuring seamless communication and smooth transactions at every step. Whether you're looking to source premium products or expand your reach into new markets.

profyna international is here to guide you through the process with personalized solutions tailored to your unique needs. Our vision is to empower businesses globally by providing access to a broad range of goods, ensuring that every shipment is handled with care, timeliness, and efficiency. We pride ourselves on our commitment to sustainability, transparency, and customer satisfaction, making us a trusted partner in the world of international trade.

BASMATI RICE

Our premium Basmati Rice is carefully sourced from selected farms and processed under strict quality standards. Known for its extra-long grains, natural aroma, and soft, fluffy texture after cooking, this rice delivers an authentic taste and rich fragrance. It is ideal for biryani, pulao, and a wide variety of international cuisines. Hygienically packed to maintain freshness, our Basmati Rice meets global export quality requirements and ensures consistent taste and purity in every grain.

NON-BASMATI RICE

Our Non-Basmati Rice is carefully processed to ensure uniform grain size, good texture, and reliable cooking performance. It is known for its natural taste, soft consistency, and versatility in everyday meals. Suitable for a wide range of cuisines, this rice is ideal for regular consumption, bulk catering, and food service industries. Hygienically milled and packed, our Non-Basmati Rice meets international quality standards and offers consistent quality, purity, and value for global markets.

CORN

Our high-quality Corn (Maize) is sourced from reliable farms and processed to meet international quality standards. It is known for its uniform kernels, natural taste, and high nutritional value. Widely used in food processing, animal feed, and industrial applications, our corn ensures consistent quality and performance. Carefully cleaned and hygienically packed, it retains freshness and meets global export requirements for purity and safety.

PEARAL MILLIET

Our premium Pearl Millet is carefully sourced and processed to ensure high purity, uniform grains, and natural quality. Known for its rich nutritional value, it is widely used in traditional foods, health-focused products, and animal feed applications. Pearl Millet is valued for its natural taste, good shelf life, and adaptability across various cuisines. Hygienically cleaned and packed, our product meets international export standards and ensures consistent quality for global markets.

SORGHUM

Our high-quality Sorghum is carefully sourced from trusted farms and processed under strict quality controls to ensure purity and uniform grains. Known for its nutritional benefits and versatility, Sorghum is widely used in food products, animal feed, and industrial applications. It offers good shelf life, natural taste, and consistent performance. Hygienically cleaned and packed, our Sorghum meets international export standards and delivers reliable quality for global markets.

CUMIN SEED

Our premium Cumin Seeds are carefully sourced from selected regions and processed to ensure high purity, strong aroma, and uniform size. Known for their distinctive flavor and rich essential oil content, cumin seeds are widely used in culinary, spice blends, and food processing applications. Hygienically cleaned and packed to retain freshness, our cumin seeds meet international export quality standards and deliver consistent taste and aroma for global markets.

COMMON WHEAT

Our high-quality Common Wheat is sourced from reliable farms and processed under strict quality standards to ensure purity and uniform grains. It is known for its good milling quality, natural taste, and wide usability in flour production and food processing. Common Wheat is suitable for bakery products, household consumption, and industrial use. Carefully cleaned and hygienically packed, our wheat meets international export requirements and delivers consistent quality for global markets.

DURUM WHEAT

Our premium Durum Wheat is carefully sourced and processed to ensure high protein content, hard texture, and uniform golden grains. Known for its excellent milling properties, Durum Wheat is widely used in the production of semolina, pasta, couscous, and specialty food products. It offers good shelf life, consistent quality, and reliable performance in food processing. Hygienically cleaned and packed, our Durum Wheat meets international export standards and global quality requirements.

PEANUTS GROUNDNUT

Our premium Peanuts (Groundnuts) are carefully sourced and processed to ensure high quality, uniform size, and natural taste. Known for their rich nutritional value and versatility, peanuts are widely used for direct consumption, oil extraction, confectionery, and food processing industries. Hygienically cleaned and packed to maintain freshness, our peanuts meet international export quality standards and ensure consistent quality and purity for global markets.

SHELLED / BLANCHED PEANUTS

Our Shelled and Blanched Peanuts are carefully processed to ensure uniform size, smooth texture, and natural flavor. The blanching process removes the outer skin, resulting in clean, white kernels suitable for premium food applications. Widely used in confectionery, bakery products, snacks, peanut butter, and food processing industries, these peanuts offer excellent quality and consistency. Hygienically packed to retain freshness, our shelled and blanched peanuts meet international export standards and global quality requirements.

CHICK PEASE

Our premium Chickpeas are carefully sourced and processed to ensure high purity, uniform size, and natural taste. Known for their rich protein content and versatility, chickpeas are widely used in household cooking, food processing, and ready-to-eat products. They offer good cooking quality, firm texture, and long shelf life. Hygienically cleaned and packed, our chickpeas meet international export quality standards and ensure consistent quality for global markets.

TEA

Our high-quality Tea is carefully sourced from selected plantations and processed to preserve its natural aroma, rich color, and refreshing taste. Known for its strong flavor and consistent quality, our tea is suitable for daily consumption as well as food service and bulk supply. It delivers a perfect balance of strength and freshness in every cup. Hygienically packed to maintain aroma and shelf life, our tea meets international export quality standards for global markets.

COFFEE (NOT ROSTED)

Our premium Unroasted Coffee Beans are carefully sourced from selected coffee-growing regions and processed to maintain their natural quality and freshness. Known for their uniform size, natural color, and good moisture balance, these beans are ideal for roasting and further processing. Widely used by roasters and coffee manufacturers, our green coffee beans offer consistent quality, good shelf life, and reliable performance. Hygienically packed, they meet international export standards and global quality requirements.

COFFEE (ROSTED)

Our premium Roasted Coffee Beans are carefully roasted to bring out a rich aroma, deep flavor, and balanced body. Sourced from quality coffee-growing regions, these beans offer consistent taste and freshness in every batch. Suitable for brewing, grinding, and commercial use, our roasted coffee delivers a smooth and satisfying coffee experience. Hygienically packed to preserve aroma and shelf life, it meets international export quality standards and global market requirements.
